Technical Statement

Product Description

Asona Renew™ is a proprietary service that renews soiled, stained or damaged acoustical ceiling panels without the time, financial and environmental costs associated with replacement. Ceiling panels are resurfaced on site or removed to Asona's factory for resurfacing with new Sonatex™ acoustic facings or vacuum laminated with washable vinyl film for hygiene areas.

Scope of use

Renew™ is ideal for commercial building owners and facility managers who wish to upgrade their suspended ceilings in offices, healthcare and educational facilities, retail etc

New Zealand Building Code (NZBC)

The product will, if employed in accordance with the supplier's installation and maintenance requirements, assist with meeting the following provisions of the building code:

- **Clause C3 Fire affecting areas beyond the fire source:** Performance C3.4(a)
- **Clause F2 Hazardous building materials:** Performance F2.3.1

Evidence

The product meets the requirements set out in the following documents, or relevant parts of cited standards within the documents:

Early Fire Reaction - Group: 1-S, NZBC verification method C/VM2, Appendix A. Suitable for fire exit way and all other sprinklered & non sprinklered buildings.

Clause B2 — durability, 5 years

Supporting Evidence

The product has and can make available the following additional evidence to support the above statements:
