Product Criteria

Design requirements

Refer to Attache Balustrades specification and fabricators manual for design parameters. This specification details the documents the Attache Balustrade System refers to in relation to the New Zealand Building Code, the manufacturer's documents, products used in the System, requirements in relation to fixing and surface finishings

Installation requirements

Installations must be in accordance with the manufacturer's and engineer's specifications.

Consideration needs to be given to the durability and compatibility of materials in contact (barrier material, fixings and fixing substrate) prior to installation.
