Level of assurance needed to demonstrate NZ Building Code Compliance

Supporting documentation should include technical information by manufacturer and either a BRANZ or independent Appraisal or CodeMark

Edgetec confirms that this minimum level of assurance has been met or exceeded by the following:

Nancekivell Cairn (2017) Ltd

[Producer Statement \(PS1\)](#)

Technical Statement

Product Description

Edgetec JH Clamp is an aluminium clamp system for 12mm or 15mm toughened glass panels, set at 600mm centres with a 300mm overhang. The JH Clamp achieves a less cluttered look than stainless steel disc balustrade fittings and the fixings are powder coated in NZ in a choice of modern Dulux colours.

For an almost invisible look, the JH Clamp system is available with a detail that hides both the external boundary joists and the JH Clamp, giving the illusion of glass panels floating with no obvious fixings.

As per other Juralco balustrading products, the Edgetec JH Clamp is NZS 1170 and NZS 4223.3.2016 compliant.

Scope of use

Edgetec JH Clamp Balustrade is suitable for internal or external settings, including: Domestic and Residential deck and balcony barriers, stairways, handrails, pool fencing and matching pool gates. Offices and work areas not included elsewhere including storage areas and Residential or Commercial area without obstacles for moving people and not susceptible to overcrowding.

Edgetec JH Clamp Balustrade must only be installed in accordance with the Edgetec JH Clamp product manual. Any deviation from standard fabrication or installation must be accompanied by a site specific PS1.

New Zealand Building Code (NZBC)

The product will, if employed in accordance with the supplier's installation and maintenance requirements, assist with meeting the following provisions of the building code:

- **Clause B1 Structure:** Performance B1.3.4(a)
- **Clause B2 Durability:** Performance B2.3.1(a)
- **Clause F2 Hazardous building materials:** Performance F2.3.3(a), F2.3.3(b)
- **Clause F4 Safety from falling:** Performance F4.3.1, F4.3.2, F4.3.3, F4.3.4(a), F4.3.4(b), F4.3.4(c), F4.3.4(d), F4.3.4(e), F4.3.4(f), F4.3.4(g), F4.3.4(h), F4.3.5(a), F4.3.5(b)
