Technical Statement

Product Description

The NEW Clearline® system uses the patented Glass Vice® technology to securely fasten the glass sheets beneath a sleek Aluminium cover panel, NZ Patent 622886 No fittings get between the view and the environment apart from robust toughened 15mm safety glass. No glass going out of alignment on timber decks which happens with existing channel systems currently on the market.

This is not a traditional channel system. This is a NEW Unique Balustrade system - the latest in Frameless Glass Balustrade design. Clearline® stainless steel clamps are side mounted, the glass is then installed by clamping in place. All the hardware is hidden behind a stylish slimline aluminium cover which can be powder coated to match Dulux colours. The Glass Vice® Clearline® system is a perfect solution for Residential and Commercial to give the clearest view of what should be celebrated not obstructed. This system has been tested and certified in New Zealand and meets all NZBC requirements.

Scope of use

The Glass Vice® Clearline® system uses the patented Glass Vice® technology with dual friction to securely fasten the glass sheets beneath a slim profile

The Clearline® System is viable for Pool Fencing, Balustrades, internal and external stair wells for residential and commercial use.

the fitted cover plate can be altered to match the surrounding environment.
