

High quality cavity sliders from NZ's largest NZ-owned manufacturer of doors and sliders.

[View miproducts listing](#)

## Level of assurance needed to demonstrate NZ Building Code Compliance

Supporting documentation should include self-assessment and technical information by manufacturer

Hallmark confirms that this minimum level of assurance has been met or exceeded by the following:

Hallmark Group

[Hallmark Cavity Sliders](#)

## Technical Statement

### Product Description

Strong, high-quality, smooth-sliding cavity sliders. Two world-class track & carriage systems: the innovative CavZero track and the Classic track.

Configurations: Single, No Closing Jamb, Bi-Parting, Double Stacking, Bi-Part Double Stacking, Right Angle (Corner Meeting), plus wall mounted surface sliders.

BIM models for all our slider products are free to download (see Technical Data in Product Information Links )

All cavity sliders are available with Soft Close, Soft Open or Jexis openers.

### Scope of use

Hallmark Cavity Sliders are for interior use in residential and commercial construction projects.

Our framing system caters for extra-wide or extra-high units, with the ability to insert steel reinforcement when additional strength is needed.

### New Zealand Building Code (NZBC)

The product will, if employed in accordance with the supplier's installation and maintenance requirements, assist with meeting the following provisions of the building code:

- **Clause B2 Durability:** Performance B2.3.1, B2.3.1(a), B2.3.1(b), B2.3.1(c)
- **Clause F2 Hazardous building materials:** Performance F2.3.1, F2.3.2, F2.3.3

### Supporting Evidence

The product has and can make available the following additional evidence to support the above statements:

Hallmark Group
