Level of assurance needed to demonstrate NZ Building Code Compliance

Supporting documentation should include self-assessment and technical information by manufacturer

Wild Kitchens confirms that this minimum level of assurance has been met or exceeded by the following:

Greenguard

[Certificate of Compliance](#)

The following information has been provided by Wild Kitchens demonstrating how this product complies with the [Building Product Information Requirements](#).

Technical Statement

Product Class

CLASS 2

Product Description

Each module is crafted to strike the perfect balance of form and function, standing 890mm high with a generous 700mm deep benchtop, the ideal working surface for comfort and practicality. Your alfresco kitchen is designed around how you cook, live, and entertain. Want more firepower or a touch of smoke? Add a Traeger, Kamado Joe, or Big Green Egg. With seamless integration for any appliance or BBQ model, we pride ourselves on achieving the perfect fit. Our Wild Kitchen BBQ library is growing rapidly, as our customers get more creative on their choice of cooking appliances. If social seating is part of your vision, consider the Grill Bar. With an extended benchtop depth allowing for seating, a Grill Bar transforms cooking into a shared experience, keeping you right in the middle of the banter and the action. From a sprawling deck to a quiet, intimate courtyard, although we are often asked to build big, we also build small. Each design is personalised to suit your lifestyle and your space, making your alfresco design truly your own.

Scope of use

100% outdoor rated
